

PENDU DROP SAW TRIMMER

Pendu heavy-duty drop saw trimmers are design-engineered to deliver maximum productivity in mills that end trim and cut boards and cants. Constructed on a rugged, tubular steel frame, each unit is manufactured with powerful 7 1/2HP motors that drive 28" carbide-tipped saw blades. For maximum reliability and long life, all bearings, chains, and sprockets are mounted on flat transfers and powered by 81x chain. Options include bolt on even ending rolls and transfers.

Drop Saw Trimmer Specifications

Cut Length	0' - 24', odd & even lengths
Blade Diameter	28" carbide tipped x 1 3/8" bore
Depth of Cut	7 1/2"
Feed Rate	Variable
Saw Power (each)	7 1/2HP motor (5HP, 10HP, & 15HP avail.)
Saw Arbors	1 15/16" Diameter
